I will accept the Request – but need to know again how to create the project. The volumes will be limited.

So far I will log in:

Here's the summary of the request. Based on emails – I believe they may also want the full SVOC list:

Validated Data = 35 days

6 surface water TCL Trace VOCs + TICs SOM01.2 or equiv. OASQA SOP

7 Groundwater MCHM*; PPH** constituents OASQA SOP
